## Tekmira Conference Call and Webcast Advisory: Corporate Update and 2010 Audited Results

VANCOUVER, British Columbia, March 28, 2011 (GLOBE NEWSWIRE) -- Tekmira Pharmaceuticals Corporation (Nasdaq:TKMR) (TSX:TKM), a leading developer of RNA interference (RNAi) therapeutics, announced that it will hold a conference call and webcast on Wednesday, March 30, 2011 at 9:00 am Pacific Time (12:00 pm Eastern Time) to provide a corporate update and reports its 2010 audited operating results.

## **Conference Call Information**

To access the conference call, please dial 914-495-8556 or 1-866-393-1607. The live webcast can be accessed through the Investor section of Tekmira's website at <a href="https://www.tekmirapharm.com">www.tekmirapharm.com</a>.

An archived webcast will be available on the Tekmira website approximately two hours after the event. In addition, a replay of the conference call will be available until April 8, 2011 by calling 706-645-9291 or 1-800-642-1687 and entering the conference ID code 54974877.

## **About RNAi and Tekmira's LNP Technology**

RNAi therapeutics have the potential to treat a broad number of human diseases by "silencing" disease causing genes. The discoverers of RNAi, a gene silencing mechanism used by all cells, were awarded the 2006 Nobel Prize for Physiology or Medicine. RNAi therapeutics, such as "siRNAs," require delivery technology to be effective systemically. LNP technology is one of the most widely used siRNA delivery approaches for systemic administration. Tekmira's LNP technology (formerly referred to as stable nucleic acid-lipid particles or SNALP) encapsulates siRNAs with high efficiency in uniform lipid nanoparticles which are effective in delivering RNAi therapeutics to disease sites in numerous preclinical models. Tekmira's LNP formulations are manufactured by a proprietary method which is robust, scalable and highly reproducible and LNP-based products have been reviewed by multiple FDA divisions for use in clinical trials. LNP formulations comprise several lipid components that can be adjusted to suit the specific application.

## **About Tekmira**

Tekmira Pharmaceuticals Corporation is a biopharmaceutical company focused on advancing novel RNAi therapeutics and providing its leading lipid nanoparticle delivery technology to pharmaceutical partners. Tekmira has been working in the field of nucleic acid delivery for over a decade and has broad intellectual property covering LNPs. Further information about Tekmira can be found at <a href="https://www.tekmirapharm.com">www.tekmirapharm.com</a>. Tekmira is based in Vancouver, B.C.
